I've worked in the nuclear industry since 2002 (private and government). Currently I'm a Senior Management System Specialist and qualified nuclear inspector for the Canadian Nuclear Safety Commission. I'm also the current Director of Administration for KVMHA and will seek to reoffer this position. I have an up-to-date background check and I am an active member of KVMHA as an assistant coach for a U15 team and as a head coach for a U13 team.

I'm currently the Director of Administration, as elected by the KVMHA Board on November 25, 2024. What I bring to the position is a questioning attitude to ensure discussions are progressive, remain within the KVMHA Constitution and By-Laws, and serve the best interest of the membership. My expectations of the Directors are to encourage factually based discussions and steer clear of assumptions and biases. Since joining, I've been seeking ways the Board of Directors can improve efficiency and their effectiveness to best serve the membership. I believe periodic training to align the Board of their obligations to the membership, should pursued. I have begun inquiring about Board of Directors training to numerous vendors. The training would emphasize:

- i. The importance of Board governance
- ii. Legal responsibilities
- iii. Effective communication

This approach has been discussed and was agreed to, by the Board, to be put on hold until after the AGM where up to half of the Directors occupying Board positions may change. In addition, I've drafted a Board of Directors Ethical Conduct document. To ensure the Ethical Conduct document has sufficient coverage/content, this document will be revisited after the Board training is completed.

**CURRENT INVOLVEMENT WITH HOCKEY**  
*(include children if applicable)*

Please list any roles you currently have within the game of hockey including but not limited to:

- Parent of player
